### **Membership Benefits & Program Overview**

Our Concierge Functional Medicine Membership is designed to provide a higher level of physician access, personalized guidance, and proactive health management than is typically available through traditional healthcare models.

**Members are investing in enhanced physician access, clinical expertise, personalized recommendations, and ongoing care coordination—not a specific number of visits, procedures, tests, or treatments.**

---

### **Included With Your Membership**

<b>Membership Benefit</b>	<b>Description</b>
Direct Physician Access	Enhanced access to your physician for medical guidance, health concerns, and ongoing care management.
Telehealth Visits	Scheduled appointments conducted by phone or secure video conferencing.
Personalized Health Optimization Plans	Individualized treatment recommendations tailored to your goals, health history, laboratory findings, and lifestyle.
Functional Medicine Evaluation	Comprehensive review of symptoms, root causes, health history, and long-term wellness objectives.
Medication Management	Review and management of medications when clinically appropriate.
Hormone Optimization Support	Evaluation and management of hormone-related concerns when indicated.
Weight Management Guidance	Personalized strategies that may include lifestyle interventions, nutrition counseling, and medication management when appropriate.
Peptide & Longevity Consultation	Physician guidance regarding advanced wellness, recovery, and longevity therapies.
Laboratory & Diagnostic Review	Detailed interpretation and discussion of laboratory results and diagnostic testing.
Care Coordination	Coordination with pharmacies, specialists, laboratories, imaging centers, and other healthcare providers when appropriate.
Ongoing Communication	Access through approved communication channels including phone, text, email, and telehealth platforms.
Preventive & Wellness Planning	Proactive strategies focused on disease prevention, health optimization, and healthy aging.
Urgent Clinical Guidance	Assistance determining the appropriate level of care for unexpected medical concerns.

---

### **Services Not Included in Membership Fees**

<b>Service</b>	<b>Description</b>
Laboratory Testing	Blood work, specialty testing, genetic testing, and other diagnostic laboratory services.

**Trinity Healthcare**

2468 E German Ivy  
Springfield, MO 65804

Hospitalization	Inpatient hospital care and related expenses.
Surgical Procedures	Procedures performed by outside physicians, facilities, or hospitals.
Outside Healthcare Services	Any medical services not directly provided through our practice.

---

### **Important Membership Information**

Your membership fee covers access to physician expertise, clinical judgment, personalized recommendations, ongoing health management, and care coordination. It is not health insurance and does not replace health insurance coverage.

Patients are strongly encouraged to maintain comprehensive health insurance coverage to assist with the cost of specialist care, laboratory testing, imaging studies, medications, urgent care visits, emergency department treatment, hospitalization, and other healthcare expenses not included in the membership program.

While members enjoy enhanced physician access, the practice does not function as an emergency service. In situations requiring immediate medical attention, patients may be directed to an urgent care facility, emergency department, or other appropriate healthcare provider. When feasible, our office will assist in coordinating care and communicating with the receiving facility.
